Career Objective

I am a dedicated Laravel Web Developer looking for a challenging role in software development. I want to use my skills to help a growing company build useful and innovative web applications. I enjoy working with a team, learning new technologies, and improving my knowledge to deliver better solutions that meet client needs.

Educations

- **SSC in Science at Purba Saptana High School, Lalmonirhat. (Passing Year - 2019)**
- **Diploma in Computer Science and Technology at Rangpur Ideal Institute of Technology, Rangpur. (Passing Year – 2023 [3.78 up to 4.00])**

Experience

- **Software Engineer**

  Smart Software LTD, Panthapath, Dhaka

  As a Software Developer at Smart Software LTD, I focus on ERP development, Salesforce integration, and inventory management solutions. My role involves designing, developing, and optimizing business applications to streamline operations and improve efficiency. I collaborate with cross-functional teams to customize ERP and Salesforce solutions based on client requirements, ensuring seamless integration with existing systems.

  Duration : Jan, 2024 – Present
